

ES627 Emergency Shower, Recess Mounted, Stainless Steel Shower Head

Application: Emergency shower for recess mounting in a finished ceiling or soffit. Shower is activated by dual on/off pull chains.

Shower Head: 10" diameter with flange for flush mounting in ceiling. Shower head is stainless steel with stainless steel face plate.

Valve: 1" IPS brass stay-open ball valve. Valve is US-made with chrome plated brass ball and Teflon® seals. Furnished with stainless steel actuating arm, dual on/off pull chains with rings and ceiling ferrules.

Pipe and Fittings: 1" IPS galvanized steel.

Supply: 1" NPT female inlet.

Sign: ANSI-compliant identification sign.

Note: ANSI Z358.1-2014 provides that shower heads be installed no more than 96" above the finished floor. This unit should therefore not be installed in ceilings over 8 feet. For higher ceiling heights, we recommend the ES658 shower.

Available Options

- **FC20** Regulates shower flow rate to 20 GPM.
- **TMV** AP3800 thermostatic mixing valve precisely blends hot and cold water to deliver warm (tepid) water as required by ANSI Z358.1-2014. Refer to "Tempering Units" section for complete technical and product selection information.

AP280-230 Electric Light and Alarm Horn

Flashing light/alarm horn unit is recess mounted in finished wall. Light is illuminated and horn sounds when shower is activated. Furnished complete with flow switch and mounting hardware.
